Information Technology – Software Developer

SUMMARY

Junior Full Stack Developer currently pursuing a degree in Systems Analysis and Development at Universidade Veiga de Almeida. Experienced in developing and maintaining web applications using PHP (Laravel), JavaScript, SQL, and REST API integration.

I work with web systems development and maintenance, applying MVC architecture, Git version control, and software development best practices.

OBJECTIVE

To work as a Junior Full Stack Developer, applying my knowledge of PHP, Laravel, JavaScript, and SQL to develop efficient web solutions while continuously expanding my skills in software engineering and system architecture.

EDUCATION

- Systems Analysis and Development – Universidade Veiga de Almeida (UVA) | Expected Graduation: 07/2026.
- Technical Degree in Information Technology (Web Development) – Colégio Santo Inácio (CSI) | Completed: 12/2023.

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer, Crase Sigma | 01/2026 — Present

- Development and maintenance of web systems for condominium management
- Implementation of backend features using PHP (Laravel)
- Development of frontend interfaces using JavaScript
- Integration between systems and APIs
- Source code version control using Git

IT Intern | 04/2023 — 07/2023

- Support in system maintenance and execution of software tests
- Installation and configuration of software and preparation of technical documentation for the team

TECHNICAL SKILLS

- Languages: PHP, JavaScript (JS), SQL, HTML, CSS, and Python
- Frameworks & Tools: Laravel, Git, GitHub, Docker, and VS Code
- Other: Databases, Agile Methodologies, and Adobe Suite

SOFT SKILLS

- Attention to Detail and Visual Quality
- Problem Solving and Logical Thinking
- Teamwork and Communication

IDIOMAS

- Portuguese: Native
 - English: Technical / Professional Working Proficiency
-
